

Professional Services

Implement. Extend. Optimize.

Complete NetSuite Solutions, Delivered by Experienced Professionals

Celigo Professional Services delivers complete NetSuite solutions, including consulting, accelerated solution design, advanced scripting, integrations, new implementations, and more.

With hundreds of successful engagements behind us, Celigo delivers end-to-end solutions tailored to fit your budget and requirements. Our functional, process, and technology consulting is well suited to small, medium, and enterprise-class organizations. Our strong focus on people and relationships has led to a high percentage of our business coming from referrals and repeat business.

Celigo is a certified NetSuite Systems Integrator, and was awarded the NetSuite SuiteCloud Partner of the Year award in 2010.

Unsurpassed Domain Expertise

Celigo has years of experience helping NetSuite customers implement, integrate, automate, and optimize their NetSuite solutions. Our services team members have completed more than 50 NetSuite implementations on average, and at least 20 years of technology and services-related experience. Many of our professionals are former NetSuite employees or customers.

Celigo has deep experience in NetSuite's core business verticals:

- Software and technology
- Services
- Wholesale distribution
- Light manufacturing
- Ecommerce and retail
- Non-profits

Our systematic, integrated approach leverages your existing systems and processes to make the right NetSuite information accessible at the right time. With each successful engagement we add experience and knowledge, and leverage those skills with new and existing customers.

Fixed-Price, Fixed-Time Delivery Model Lowers Risk

Celigo provides you with low-risk options and mitigates financial uncertainty. Our approach provides the best option for on-time, on-budget delivery of projects. Deliverables, costs and timelines are clearly defined.

Maximize Your Investment

Celigo has considerable experience promoting and excelling in cloud computing, providing secure and reliable Software as a Service (SaaS) and Platform as a Service (PaaS) solutions for NetSuite. Our approach can help you maximize your investment and generate real, tangible value.

“ Working with Celigo has been a wonderful experience. Their team is prompt, professional and very knowledgeable. I would highly recommend their services to anyone looking for NetSuite help. ”

— Kelly Izer, COO,
IslandSurf

“ We found that Celigo's strength lies in their ability to translate business requirements into functional code that “speaks” clearly and reliably to our web business applications. ”

— Ken Plumlee, CEO,
Lumens Light + Living

Service Offerings

Optimization and Performance Improvement

Your business is always changing, and once you experience the benefits of NetSuite, you'll want to further improve productivity and performance by introducing new processes that extend NetSuite's capabilities.

Optimization services are a must for any organization looking to increase return on investment in NetSuite. Celigo understands what works and what can be improved.

Implementation

If you're considering NetSuite for your organization or have just started using NetSuite within the past 3-6 months, Celigo can help you with:

- Strategy and analysis
- Planning and configuration
- Deployment
- Functional consulting and training
- Optimization and post go-live support

Celigo has a long, successful relationship with NetSuite, working closely with NetSuite sales and support to help their customers succeed. In fact, NetSuite considers us as one of their preferred go-to partners.

We work with our customers to plan the implementation, including its functional scope, schedule, resources, and budget. We own the project and help keep everyone on task to ensure that objectives are met.

SuiteFlex and SuiteScript

Celigo is a leader in NetSuite business process automation through scripting. With each engagement, we acquire new skills and new scripts for our script library, now numbering in the thousands.

As a certified NetSuite Systems Integrator, Celigo is uniquely positioned to add real, immediate, tangible value when it comes to meeting your advanced scripting and automation needs. We have been building scripts using Server SuiteScript technologies from the beginning, and we have the depth of experience to handle any type of scripting project.

Integration

Every product in our portfolio integrates disparate applications with NetSuite. Integration is the core concept driving our business and culture.

Many of our products were either conceived or built during an actual service engagement. When it comes to integrating NetSuite with other applications, Celigo is the de-facto standard.

We can integrate NetSuite with virtually any other application in your enterprise, and all of our integrations are fully scalable and adaptable, so they can grow with your organization.

“ Because our primary focus is continuing education programs, the ability to sell courses online using NetSuite was not possible out-of-the-box. Celigo listened to what we needed and presented us with a streamlined solution with business process automation that meets our course registration needs. Celigo is fully committed to effectively and efficiently meeting our ever-changing needs. ”

— Carrie Holbert, School of Government, University of North Carolina at Chapel Hill

“ We partnered with Celigo because of their vast experience in integration and automation. Celigo provided us with an innovative solution that integrates NetSuite with the LivePerson Chat service using SuiteScript, which is now deployed to a substantial number of NetSuite customers. When it comes to NetSuite automation, Celigo delivers! ”

— Philippe Lang ,
Vice President, LIVEperson

“ This web store project with Celigo was as seamless a development process as I could imagine one to be. The Celigo team totally executed. When necessary, they gave us options and always figured out a solution. ”

— Bobby Pardini, Director of Design Solutions, The Grove
