

NetSyncX

Sync NetSuite and Apple Mac

Now Sync Calendar, Tasks, Contacts, and Email with NetSuite

Many Mac users have already discovered the benefits of running their business on NetSuite's integrated platform. Using NetSyncX, Mac users can enjoy the benefits of increased productivity through an integrated Mac platform with NetSuite.

And now, since Microsoft Office version 11.2.3, Entourage can also be synchronized with NetSuite without the need for additional third-party tools.

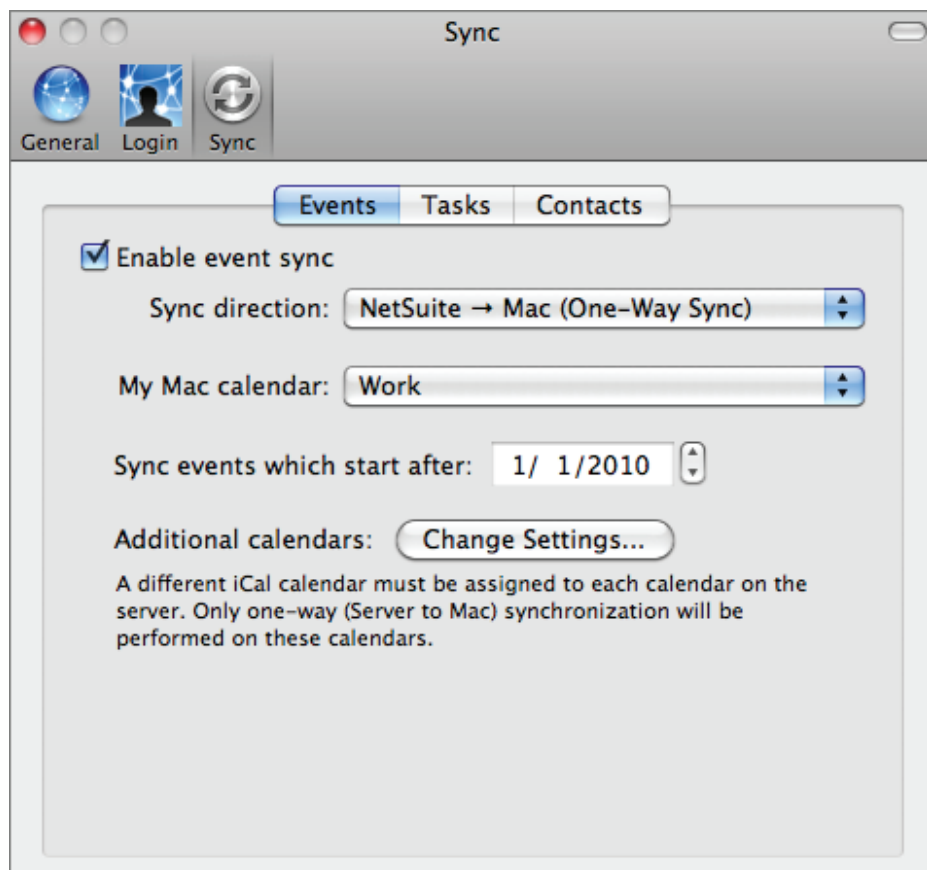

Need to sync your NetSuite data with your iPhone? With NetSyncX, there is no need for yet another sync application, since all your NetSuite data is already on your Mac, and will synchronize seamlessly with your iPhone.

Key Features

NetSyncX synchronizes all calendaring, tasks, contacts, and e-mail between NetSuite and the Mac. The application accesses NetSuite via the SuiteFlex Web Services interface, using your regular NetSuite login.

NetSyncX provides the link between the Apple iSync technology and NetSuite, letting you synchronize other iSync-enabled applications and devices with your NetSuite data. You can send your NetSuite calendar and contacts to Apple iCal, Apple Address Book, and Microsoft Entourage, or carry it with you in your iPhone or iSync-enabled mobile device.

Calendar Events & Tasks

NetSyncX supports two-way synchronization of Calendar Events and Tasks between NetSuite and the Mac for Apple iCal or Microsoft Entourage. Recurring events in NetSuite synchronize accurately to your Mac.

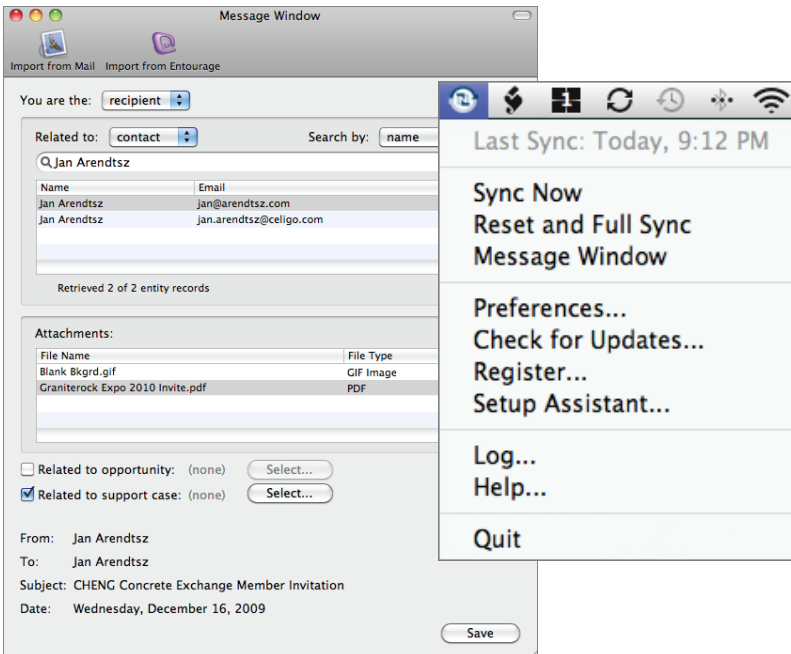

NetSyncX supports one-way synchronization of public Resource and Employee calendars for Apple iCal only.

Contacts

NetSyncX supports one-way synchronization of Address Book Contacts from NetSuite into the Apple Address Book or Microsoft Entourage. You can upload selected contacts from NetSuite to your Mac with a simple mouse click.

Email

Now you can keep the rest of your business in sync with your customer interactions by integrating e-mail with NetSuite. With NetSyncX, you can select an e-mail in Apple Mail or Microsoft Entourage and save the message details to NetSuite. You can even associate the message with a contact, customer, opportunity, or support case in NetSuite. Email attachments are also supported seamlessly.

SPECIFICATIONS

- > Requires Mac OS X 10.6 (Snow Leopard), OS X 10.5 (Leopard), or 10.4 (Tiger)
- > Requires Microsoft Exchange version 11.2.3 or higher if using Entourage instead of the native Mac applications.
- > Communication facilitated through SSL encrypted Web Services
- > Automated updates included and made available transparently

PRICING

- > Annual \$180 per user subscription
- > No additional fees or setup charges

“ We are implementing NetSuite and expect it to be integral to managing our leading edge global engineering services firm. A significant part of our workforce uses Macs, and having a seamless integration between NetSuite and the Mac desktop is essential to harness the full capabilities of NetSuite. We're pleased to use NetSyncX, as it nicely matches our need for real time information in a mixed platform environment. ”
